NEW YORK STOCKS ALL SHOWING GAINS

Bethlehem Steel Rises and United States Steel Improves Greatly.

New York, July 31.—The stock market displayed a strong undertone during the morning with the Bethlehem steel stocks making substantial gains on rumors of an early resumption of dividends.

Reports of increased activity in the steel industry and the rise in American securities in London had a tonic effect on the whole market.

Bonds were irregular with the American Tobacco issues heavy. Westinghouse Electric was sold rather freely and lost over a point on selling, inspired by disappointment over the outcome of the contest for control. The market otherwise was higher, some large purchases of United States Steel sending it up to 79 1/2.

The market closed steady. Trading at most halted in the final hour with no material change in prices.

MONEY AND METALS.
